MOBILITY

© Copyright 2013

Nova Rolling Walkers are **Built for Life** with the best features and quality in the mobility world.

FRAME STRENGTH

Nova rolling walker frames are made with the highest quality materials and workmanship. They are backed by our Limited Lifetime Warranty.

HAND BRAKES

Our **patented hand brakes** are designed for maximum comfort and control. They allow users to easily control the speed by pulling up and engage the park brake by pushing down. Users with weak or small hands need not worry – our hand brakes are the best and easiest to use. They even come with reflectors for safety and good looks!

FLIP-UP BACK

(On 4200, 4200C, 4201, 4202, 4202C, 4203, 4204, 4206, 4207 4208C, 4214, 4215, 4218, 4220, 4222, 4224, 4236, 4237, 4238)

Nova's unique **Flip-up Back** is so convenient for compact transporting and just as easily flips back down to provide a comfortable backrest when the user is seated. No more lost or damaged backrests with Nova's easy Flip-up Back.

EASY TO REMOVE BACK

(On 4216)

Nova's **patented pull pin release design** allows the user to easily remove the back for compact storage. The back can just as easily lock back into place for a secure and comfortable backrest.

Tips for Choosing Your Nova Rolling Walker

Walkers are NOT one size fits all

To determine the correct seat height – sit on the seat with your back to the backrest. Your feet should both be flat on the ground with your thighs resting comfortably on the seat. Make sure your weight is below the listed weight capacity and you can sit comfortably between the handles.

Choose the features and options that go with your lifestyle

With your Nova walker you will now be on the go! - so choose the features that compliment and support your independence. What kind of seat do you want? How about storage for your personal belongings? What size wheels are best for your walking terrain? Be sure to consider great options like a cup holder, flashlight, or mobility clutch!

Get your Style ON

Choose the walker color and designer mobility bags to compliment your personal style. You can choose for YOU and walk with pride and style.

Before you take your Nova for a test drive – be sure to:

- Make sure the backrest is attached.
- Adjust the handles to your height. Adjust the hand grips to your wrist for a slight 30 degree bend at the elbow.
- Read and understand all user warnings.
- Practice engaging the hand brakes and locking the hand brakes prior to use.

Lock N Load

Common Problem... NOVA Solution

Patent Pending

NOVA is the only rolling walker brand to develop a unique solution to a common rolling walker problem. Keeping your rolling walker locked in a folded position has tremendous everyday benefits. This makes it much easier to lift your rolling walker in and out of a car and store or travel with your rolling walker. The Lock N Load also reduces wear and tear to your NOVA walker and makes handling your NOVA walker much easier for family, friends, and anyone who parks or stores your ride.

How to Use Your Lock N Load - Seven Easy Steps!

Step 1:

Fully fold the walker.

Step 2:

With the walker fully folded, lean the walker toward you. (This step opens up the hinge so it is easier to insert the Lock N Load into the hinge).

Step 3:

Push the Lock N Load upward so it is **engaged** into the hinge (pictured below).

Disengaged

Engaged

Step 4:

With the Lock N Load engaged, you can now keep your NOVA walker in a locked position. This allows you to easily lift the walker.

*The most common use for keeping the walker in a folded position - loading and unloading into and out of a car (pictured to the left).

Step 5:

To disengage the Lock N Load (the walker is in the folded position) lean the walker toward you. This step opens up the hinge so it is easier to disengage the Lock N Load from the hinge.

Step 6:

Push down on the Lock N Load so the Lock N Load insert is no longer in the hinge (pictured below).

Step 7:

Pull up on the hand brakes and push outward to unfold the walker.

This icon indicates if a rolling walker comes with the Lock N Load. Most of our models come with it included: 4218, 4220, 4222, 4224, 4202C, 4203, 4208C, 4202, 4207, 4200, 4200C, 4201, 4214, 4215
